**PLACER COUNTY AIR POLLUTION CONTROL DISTRICT
CONTINUATION REPORT**

NAME OF COMPANY/PERSON Kiewit Pacific Co./Pat Harrison	LOCATION ADDRESS 2701 Combie Rd.	REPORT# 2126
REPORT TYPE ☐ INSPECTION ☒ COMPLAINT/INVESTIGATION	CITY/ZIP Meadow Vista , 95722	DATE 5/9/01
INVESTIGATED BY John Mahoney		

1 5/9/01-11:50am arrived at 2701 Combie road observed no visible emissions coming
2 from the Asphalt plant. At 1:57pm observed generator start up, opacity within
3 compliance of rule 202. While observing opacity of generator Pat Harrison of Kiewit
4 Pacific Co. asked what we needed. I told him that we had received a complaint
5 regarding smoke in the area and that we were trying to find the source. I asked Mr.
6 Harrison how long he had been operating the plant at this location. He said they had
7 started operation around April 30, 2001 but that today they had lost power around
8 11:00am due to rolling black out and had brought in a generator for power so they
9 could clean out the system. I then requested to see his permit to operate the Asphalt
10 plant and batch records. He said he did not have a permit yet but had been told it
11 was ok to operate. He said all operation records are sent off site each day and that
12 he did not have any on site at this time. I explained that the records should be kept
13 on site for review if needed and that I would like a copy of the records sent to me so
14 I could verify the start-up date and days of operation. I then explained that because
15 he did not have a permit to operate he was in violation of rule 501 and that I was
16 going to issue him a Notice of Violation. After I gave him the Notice of Violation I
17 explained that if he continued to operate without a permit that he would continue to
18 be in violation.

19 5/10/01-8:00am to 9:30am observed no visible emissions. Drove by Asphalt plant not
20 in operation.

21 5/14/01 Talked with Dave Hinshaw of PG&E and he said that on 5/9/01 PG&E had
22 no rolling black outs in the Meadow Vista Area. ????????
